ELSEVIER

Biomembranes

Vol. 1196, 1994

BBA Biochimica et Biophysica Acta

Cumulative Contents

Information for Contributors *vii*

Regular Papers

The relationship between phospholipid content and Ca^{2+}-ATPase activity in the sarcoplasmic reticulum
S. Pikuła, L. Epstein and A. Martonosi (USA) 1

Mechanism of alanine excretion in recombinant strains of *Zymomonas mobilis*
J. Ruhrmann, G.A. Sprenger and R. Krämer (Germany) 14

Putative cytoplasmic amphiphilic domains in the nerve growth factor/tumour necrosis factor receptor superfamily
S.M. Myers, G.M. Ross, S.M. Dostaler, M.N. Anderson, D.F. Weaver and R.J. Riopelle (Canada) 21

Separation and characterization of Na^+,K^+-ATPase containing vesicles
Yu.A. Ivashchuk-Kienbaum and H.-J. Apell (Germany) 29

Acylation of proteins of the archaebacteria *Halobacterium cutirubrum* and *Methanobacterium thermoautotrophicum*
E.L. Pugh and M. Kates (Canada) 38

Coordinate induction of Na^+-dependent transport systems and Na^+,K^+-ATPase in the liver of obese Zucker rats
B. Ruiz-Montasell, A. Ferrer-Martinez, F.J. Casado, A. Felipe and M. Pastor-Anglada (Spain) 45

Spin label EPR study of lipid solvation of supramolecular photosynthetic protein complexes in thylakoids
A. Ivancich, L.I. Horváth, M. Droppa, G. Horváth and T. Farkas (Hungary, France) 51

The targeting of phospholipid liposomes to bacteria
M.N. Jones, M. Kaszuba, M.D. Reboiras, I.G. Lyle, K.J. Hill, Y.-H. Song, S.W. Wilmot and J.E. Creeth (UK, Spain) 57

Entrapment of haemoglobin into liposomes by the dehydration-rehydration method: vesicle characterization and in vivo behaviour
M. Brandl and G. Gregoriadis (UK) 65

Early and delayed stages in the solubilization of purple membrane by a polyoxyethylenic surfactant
A.-R. Viguera, J.-M. González-Mañas, S. Taneva and F.M. Goñi (Spain) 76

Presence of membrane-bound proteinases that preferentially degrade oxidatively damaged erythrocyte membrane proteins as secondary antioxidant defense
M. Beppu, M. Inoue, T. Ishikawa and K. Kikugawa (Japan) 81

Determination of pathways for sodium movement across corneal endothelial cell derived plasma membrane vesicles
C.G. Wigham, D. Kaila and S.A. Hodson (UK) 88

Rapid Report

Activation of plant plasma membrane H^+-ATPase by the non-ionic detergent Brij 58
E. Ibarz, M.G. Palmgren, J. Palazón, M.-T. Piñol and R. Serrano (Germany, Spain) 93

Short Sequence-Paper

Molecular cloning and functional expression of the guinea pig cardiac Na^+–Ca^{2+} exchanger
Y. Tsuruya, M.M. Bersohn, Z. Li, D.A. Nicoll and K.D. Philipson (USA) 97

Regular Papers

Temperature- and pH-controlled fusion between complex lipid membranes. Examples with the diacylphosphatidylcholine/fatty acid mixed liposomes
S. Zellmer, G. Cevc and P. Risse (Germany) 101

Membrane/water partition of oligo(ethylene oxide) dodecyl ethers and its relevance for solubilization
H. Heerklotz, H. Binder, G. Lantzsch and G. Klose (Germany) 114

Microencapsulation of hemoglobin in liposomes using a double emulsion, film dehydration/rehydration approach
S. Zheng, Y. Zheng, R.L. Beissinger and R. Fresco (USA) 123

An analysis of cardiac sodium channel properties using digital signal processing techniques
D.A. Saint, M.K. Pugsley and S.-H. Chung (Australia) 131

Calmodulin modulates protein 4.1 binding to human erythrocyte membranes
C.R. Lombardo and P.S. Low (USA) 139

Solubilization of the overexpressed integral membrane protein alkane monooxygenase of the recombinant *Escherichia coli* W3110[pGEc47]
J. Peters and B. Witholt (Switzerland) 145

Reversible reduction of phospholipid bound arachidonic acid after low density lipoprotein apheresis. Evidence for rapid incorporation of plasmalogen phosphatidylethanolamine into the red blood cell membrane
B. Engelmann, C. Bräutigam, R. Kulschar, J. Duhm, E. Prenner, A. Hermetter, W.O. Richter, J. Thiery and D. Seidel (Germany, Austria) 154

Interaction of phthalocyanines with lipid membranes: a spectroscopic and functional study on isolated rat liver mitochondria
F. Ricchelli, P. Nikolov, S. Gobbo, G. Jori, G. Moreno and C. Salet (Italy, France) 165

Influence of dye and protein location on photosensitization of the plasma membrane
I.E. Kochevar, J. Bouvier, M. Lynch and C.-W. Lin (USA) 172

Transmembrane potentials in cells: a diS-C_3(3) assay for relative potentials as an indicator of real changes
J. Plášek, R.E. Dale, K. Sigler and G. Laskay (Czech Republic, UK) 181

Translocation of two glucose transporters in heart: effects of rotenone, uncouplers, workload, palmitate, insulin and anoxia
T.J. Wheeler, R.D. Fell and M.A. Hauck (USA) 191

Cationic liposomes improve stability and intracellular delivery of antisense oligonucleotides into CaSki cells
K. Lappalainen, A. Urtti, E. Söderling, I. Jääskeläinen, K. Syrjänen and S. Syrjänen (Finland) 201

ATP-dependent transport of the linear renin-inhibiting peptide EMD 51921 by canalicular plasma membrane vesicles of rat liver: evidence of drug-stimulatable ATP-hydrolysis
K. Ziegler, C. Kolac and W. Ising (Germany) 209

Solubilization of a membrane-associated protein from rat nervous system tissues which binds anionic glycolipids and phospholipids
T.K. White and R.L. Schnaar (USA) 218

Rapid Report

Self assembly of covalently anchored phospholipid supported membranes by use of DODA-Suc-NHS-lipids
G. Brink, L. Schmitt, R. Tampé and E. Sackmann (Germany) 227

Cumulative Contents, Vol. 1196 231
